

BASIS

The public interest score is calculated as the sum of the following:

1. a number of points equal to the average number of employees of the close corporation during the financial year-end
2. one point for every R 1 million (or portion thereof) in third party liabilities of the close corporation at the financial year end;
3. one point for every R 1 million (or portion thereof) in turnover of the close corporation during the financial year; and
4. one point for every individual who, at the end of the financial year, is known by the close corporation to directly or indirectly have a beneficial interest in the close corporation.

CALCULATION

- a) 65 12
- b) 26
- d) 61 41
- c) 2

5. TOTAL: 155 73
