2. Current status of business rescue proceeding

Kindly note: This is the 31st monthly report submitted by the BRPs. As is required by law the BRPs will going forward provide Affected Parties with a monthly report, updating such parties on the progress of the business rescue process.

Each subsequent status report must be read together with all previous status reports and that the information contained in the most recent report only contain a record of events and/or information that have transpired subsequent to the publication of the previous month's status report.

2.1 Elandspruit:

- 2.1.1 As previously reported the BRPs have identified a preferred bidder for the sale of the Elandspruit operations. An alternative strategy has been proposed and the BRPs have been meeting with Salungano Management in this regard. Negotiations have progressed well with concept agreement having been exchanged between the parties.
- 2.1.2 We remain hopeful to conclude on the sale during September 2026.

2.2 Khanyisa:

- 2.2.1 Operations at Khanyisa remain in care and maintenance for some time, with some short-term project approved to access some lower grade stockpiles on site. The BRPs initially anticipated that this project would be concluded by 31 December 2025. However, some coal remains to be processed, which has extended the timeline for completion of the project to 31 October 2026.
- 2.2.2 Other initiatives at Khanyisa remain ongoing and unchanged from previous reports.

2.3 Processing Plant:

- 2.3.1 The Wescoal processing facility was identified as one of the prime sources of revenue and all effort has been made to commence toll washing operations on site over since Business Rescue began.
- 2.3.2 The BRP's are currently negotiating contractual terms to recommence operations following successful negotiations with a new toll washing client. This includes various set requirements which the BRPs have proposed in conjunction with service providers that have previously operated the plant, and includes the need for deposits etc.
- 2.3.3 The parties have targeted the beginning of September to recommence operations.

3. Additional Matters

- 3.1 Various other matters have also needed to be dealt with, and next steps considered, being *inter alia*:
 - 3.1.1 The action plan to address the audit findings from the Department remains in progress, and in the interim Wescoal Mining is unable to return discard to the pit, requiring alternative processing arrangements for washed product.
 - 3.1.2 Engagement with the BRPs of Arnot Opco regarding the proceedings of that business rescue remain ongoing.
 - 3.1.3 Environmental Aspects at Wescoal Mining:
 - 3.1.3.1 The non-compliance with environmental requirements on all the Wescoal Minig sites is substantial. As recorded in the adopted Business Rescue Plan, one of the key objectives of the business rescue process is to remediate as much of these non-compliances.
